Editorial Review

About the Author

Larry Goldstein has received several distinguished teaching awards, given more than fifty Conference and Colloquium talks & addresses, and written more than fifty books in math and computer programming. He received his PhD at Princeton and his BA and MA at the University of Pennsylvania. He also teaches part time at Drexel University.

David Schneider, who is known widely for his tutorial software, holds a BA degree from Oberlin College and a PhD from MIT. He is currently an associate professor of mathematics at the University of Maryland. He has authored eight widely used math texts, fourteen highly acclaimed computer books, and three widely used mathematics software packages. He has also produced instructional videotapes at both the University of Maryland and the BBC.

Martha Siegel holds a BA from Russell Sage College, attended Rensselear Polytechnic Institute as a special student, and received his PhD at the University of Rochester. From 1966 until 1971 she taught at Goucher University in Baltimore. Since 1971 she has been a professor at Towson State University, also in Maryland. Professor Siegel has been on the writing team of this book since the fifth edition and is also the co-author of a precalculus reform book.

Users Review

From reader reviews:

Patricia Rodrigue:

In this 21st hundred years, people become competitive in every way. By being competitive today, people have do something to make all of them survives, being in the middle of the crowded place and notice simply by surrounding. One thing that at times many people have underestimated it for a while is reading. Yeah, by reading a book your ability to survive raise then having chance to endure than other is high. For you personally who want to start reading any book, we give you that Finite Mathematics & Its Applications (10th Edition) book as starter and daily reading guide. Why, because this book is greater than just a book.

Thomas Murray:

Often the book Finite Mathematics & Its Applications (10th Edition) will bring someone to the new experience of reading the book. The author style to describe the idea is very unique. If you try to find new book you just read, this book very ideal to you. The book Finite Mathematics & Its Applications (10th Edition) is much recommended to you to see. You can also get the e-book in the official web site, so you can more easily to read the book.

Steven Purdy:

Is it a person who having spare time after that spend it whole day through watching television programs or just resting on the bed? Do you need something new? This Finite Mathematics & Its Applications (10th Edition) can be the reply, oh how comes? A fresh book you know. You are therefore out of date, spending your free time by reading in this brand new era is common not a geek activity. So what these textbooks have than the others?

Marva Larson:

What is your hobby? Have you heard that will question when you got students? We believe that that concern was given by teacher on their students. Many kinds of hobby, Everybody has different hobby. And you know that little person just like reading or as examining become their hobby. You must know that reading is very important in addition to book as to be the issue. Book is important thing to add you knowledge, except your own personal teacher or lecturer. You find good news or update about something by book. Numerous books that can you choose to adopt be your object. One of them is this Finite Mathematics & Its Applications (10th Edition).
