

My Virtual Child Student Access Code Card

By Frank Manis

My Virtual Child Student Access Code Card By Frank Manis

My Virtual Child is an interactive, web-based simulation that allows you to act as a parent and raise your own "virtual" child, applying the content you are learning in class. By making decisions about specific scenarios, you will raise your child from birth to age 18 and see how your personal decisions and parenting actions affect your child over time. At each age, you will be given personalized feedback about the various milestones your child has attained. As in real life, certain "unplanned" events may randomly be presented to you. You can purchase immediate access online with a credit card at www.myvirtualchild.com.

Editorial Review

About the Author

Professor Frank Manis is currently Professor of Psychology at the University of Southern California, where he is serving a three-year term as a Faculty Fellow in the Center for Teaching Excellence. He has published about 50 articles on reading disabilities, development of literacy and biliteracy, and cognitive neuropsychology. The major focus of his research has been on the identification of sources of heterogeneity among children with developmental dyslexia. He is currently funded by the National Institute of Child Health and Human Development to study reading in children and adults with dyslexia. He just finished a 5-year term as editor for *Scientific Studies of Reading* and serves on the editorial board for the *Journal of Experimental Child Psychology*, *Scientific Studies of Reading* and *Annals of Dyslexia*.

Users Review

From reader reviews:

Jerry Gavin:
