Then there are true papercraft artists whose creations are above and beyond a hobbyist's skill. In this case, you have Yee. *Origami Architecture* is for anyone who aspires to be the type of artist who is meticulous, exacting and fascinated by complexity."

"What's notable about these paper replicas is how much detail that plain white paper can illuminate. When you strip away the model's materiality, the simple interface of light and shade highlights the striking beauty of the buildings' architectural outlines. That such intricate crafts can be folded flat only adds to their mystery." —*Architect magazine*
