Structural Steelwork: Design to Limit State Theory, Fourth Edition By Dennis Lam, Thien Cheong Ang, Sing-Ping Chiew

Completely revised and updated, this fourth edition of **Structural Steelwork: Design to Limit State Theory** describes the design theory and code requirements for common structures, connections, elements, and frames. It provides a comprehensive introduction to structural steelwork design with detailed explanations of the principles underlying steel design.

See what's in the Fourth Edition:

- All chapters updated and rearranged to comply with Eurocode 3
- Compliant with the other Eurocodes
- Coverage of both UK and Singapore National Annexes
- Illustrated with fully worked examples and practice problems

The fourth edition of an established and popular text, the book provides guidance for students of structural and civil engineering and is also sufficiently informative for practising engineers and architects who need an introduction to the Eurocodes.

Editorial Review

Review

"This is an excellent book by authors who have significant expertise in structural steel design and in the use of Eurocode 3 specifically. This book should be very useful for senior undergraduate students, graduate students and engineers in the UK, Europe, Malaysia and Singapore and wherever Eurocode 3 is used in design."

—Professor Brian Uy, Centre for Infrastructure Engineering & Safety, School of Civil and Environmental Engineering, The University of New South Wales, UNSW, Sydney, Australia

"The book provides state-of-the-art information on design of steel structures. ... This is a very useful reference book in steel structure design."

—SL Chan, Hong Kong Polytechnic University

About the Author

Dennis Lam is the Chair in Structural Engineering at the University of Bradford, UK. He is currently a Visiting Professor at the Hong Kong Polytechnic University and is the President of Association for International Cooperation and Research in Steel–Concrete Composite Structures and vice chair of the research panel for the Institution of Structural Engineers. He is also a member of the British Standard Institute B525/ and CEN/T250/SC4 committees responsible for the BS5950 and Eurocode 4.

Chiew Sing Ping is Head of the Division of Structures and Mechanics at Nanyang Technological University, Singapore and is Past President of the Singapore Structural Steel Society.

Thien Cheong Ang was formerly at Nanyang Tech University in Singapore.

Users Review

From reader reviews:

Lawanda Beverly:

Throughout other case, little individuals like to read book Structural Steelwork: Design to Limit State Theory, Fourth Edition. You can choose the best book if you appreciate reading a book. So long as we know about how is important a new book Structural Steelwork: Design to Limit State Theory, Fourth Edition. You can add information and of course you can around the world by a book. Absolutely right, simply because from book you can understand everything! From your country till foreign or abroad you can be known. About simple point until wonderful thing you could know that. In this era, we can open a book or even searching by internet unit. It is called e-book. You should use it when you feel weary to go to the library. Let's examine.

Bella Singer:

Now a day folks who Living in the era everywhere everything reachable by interact with the internet and the resources included can be true or not involve people to be aware of each facts they get. How people have to be smart in having any information nowadays? Of course the correct answer is reading a book. Looking at a book can help people out of this uncertainty Information mainly this Structural Steelwork: Design to Limit State Theory, Fourth Edition book because this book offers you rich information and knowledge. Of course the knowledge in this book hundred per cent guarantees there is no doubt in it you probably know this.

Marla Brinker:

Spent a free time for you to be fun activity to try and do! A lot of people spent their leisure time with their family, or their friends. Usually they doing activity like watching television, planning to beach, or picnic within the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your free time/ holiday? Could possibly be reading a book might be option to fill your cost-free time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to test look for book, may be the book untitled Structural Steelwork: Design to Limit State Theory, Fourth Edition can be fine book to read. May be it may be best activity to you.

Elizabeth Rivera:

Many people spending their time by playing outside together with friends, fun activity together with family or just watching TV all day every day. You can have new activity to spend your whole day by reading through a book. Ugh, do you consider reading a book can definitely hard because you have to take the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Cell phone. Like Structural Steelwork: Design to Limit State Theory, Fourth Edition which is having the e-book version. So , try out this book? Let's view.
