The Martian's Daughter: A Memoir By Marina Whitman

One of the five Hungarian scientific geniuses dubbed "the Martians" by their colleagues, John von Neumann is often hailed as the greatest mathematician of the twentieth century and even as the greatest scientist after Einstein. He was a key figure in the Manhattan Project; the inventor of game theory; the pioneer developer of the modern stored-program electronic computer; and an adviser to the top echelons of the American military establishment. In *The Martian's Daughter*, Marina von Neumann Whitman reveals intimate details about the famed scientist and explores how the cosmopolitan environment in which she was immersed, the demanding expectations of her parents, and her own struggles to emerge from the shadow of a larger-than-life parent shaped her life and work.

Unfortunately, von Neumann did not live to see his daughter rise to become the first or highest-ranking woman in a variety of arenas. Whitman became a noted academic during the 1960s and '70s, casting her teaching and writing in the framework of globalization before the word had been invented; became the first woman ever to serve on the President's Council of Economic Advisers and participated actively in U.S. efforts to reshape the international monetary and financial system during the early 1970s; pioneered the role of women on the boards of leading multinational corporations; and became the highest-ranking female executive in the American auto industry in the 1980s. In her memoir, Whitman quotes from personal letters from her father and describes her interactions with such figures as Roger Smith of GM and President Nixon. She also details the difficulties she encountered as an early entrant into a world dominated by men and how she overcame the obstacles to, in her words, "have it all."

Users Review

From reader reviews:

Arthur Bennett:

Spent a free time and energy to be fun activity to do! A lot of people spent their spare time with their family, or their particular friends. Usually they performing activity like watching television, going to beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Will you something different to fill your own personal free time/ holiday? May be reading a book is usually option to fill your cost-free time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to test look for book, may be the e-book untitled *The Martian's Daughter: A Memoir* can be great book to read. May be it could be best activity to you.

Sandra Hughes:

This *The Martian's Daughter: A Memoir* is fresh way for you who has fascination to look for some information as it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know or perhaps you who still having tiny amount of digest in reading this *The Martian's Daughter: A Memoir* can be the light food in your case because the information inside this specific book is easy to get by simply anyone. These books produce itself in the form which is reachable by anyone, yeah I mean in the e-book contact form. People who think that in reserve form make them feel sleepy even dizzy this book is the answer. So there is absolutely no in reading a book especially this one. You can find actually looking for. It should be here for you actually. So , don't miss this! Just read this e-book style for your better life along with knowledge.

Charles Baker:

Do you like reading a guide? Confuse to looking for your preferred book? Or your book has been rare? Why so many issue for the book? But any people feel that they enjoy with regard to reading. Some people likes

examining, not only science book but also novel and *The Martian's Daughter: A Memoir* or perhaps others sources were given understanding for you. After you know how the good a book, you feel need to read more and more. Science publication was created for teacher as well as students especially. Those guides are helping them to include their knowledge. In some other case, beside science book, any other book likes *The Martian's Daughter: A Memoir* to make your spare time more colorful. Many types of book like this.

Luther Jensen:

Many people said that they feel weary when they reading a reserve. They are directly felt the idea when they get a half elements of the book. You can choose the actual book *The Martian's Daughter: A Memoir* to make your current reading is interesting. Your current skill of reading skill is developing when you like reading. Try to choose straightforward book to make you enjoy to learn it and mingle the impression about book and studying especially. It is to be 1st opinion for you to like to open up a book and study it. Beside that the publication *The Martian's Daughter: A Memoir* can to be a newly purchased friend when you're experience alone and confuse using what must you're doing of the time.
