Editorial Review

Amazon.com Review

Another in Ben Bova's series on Science Fiction Writing, here geologist and SF scribe Stephen Gillett helps you construct star systems and planets from the atoms up. While it may take you a little more than the proverbial seven days (well, *six* with rest), when you're done, your knowledge of gravity, weather patterns, cosmic mass and stellar patterns--in this universe--will be greatly enhanced.

Users Review

From reader reviews:

Viola Waters:

A lot of people always spent all their free time to vacation or even go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long.
