Editorial Review

About the Author

Jeffrey O. Bennett's academic home is the University of Colorado at Boulder, where he has been teaching on and off since 1983 and from which he received his Ph.D. in Astrophysics in 1987. During this time, he's taught more than 50 college courses in subjects including mathematics, astronomy, physics, environmental science, and science education. He began work on *Using and Understanding Mathematics* because he is particularly interested in helping students overcome difficulties with mathematics. For similar reasons, he has recently completed a textbook for introductory astronomy (*The Cosmic Perspective*, with M. Donahue, N. Schneider, and G.M. Voit, Addison Wesley Longman, 1999).

He is also working on several books about mathematics and science for the general public. In addition, he is now working on science books for children. Jeff is perhaps best known for his role in creating the Voyage Scale Model Solar System on the National Mall in Washington, DC (opening October 2001); he proposed the project and worked on the team that developed it as a collaborative effort between the Challenger Center for Space Science Education, the Smithsonian Institution, and NASA.

When not working, he enjoys participating in masters swimming and hiking the trails of Boulder, Colorado, with his family.

William L. Briggs has been on the mathematics faculty at the University of Colorado at Denver for 17 years. He teaches throughout the undergraduate and graduate curriculum with a special interest in teaching mathematical modeling as it applies to problems in biology and medicine. He developed the quantitative reasoning course for liberal arts students at CU-Denver supported by the textbook "*Using and Understanding Mathematics*," which he co-authored with Jeff Bennett. He has written two other tutorial monographs, "*The Multigrid Tutorial*" and "*The DFT: An Owner's Manual for the Discrete Fourier Transform*,"

He is a University of Colorado President's Teaching Scholar, an Outstanding Teacher awardee of the Rocky Mountain Section of the MAA, and the recipient of a Fulbright Fellowship to Ireland. Bill lives with his wife, Julie, his daughter, Katie, and two dogs, Midnight and Seamus, in Boulder, Colorado. He loves to bake bread, as well as run trails and rock climb in the mountains near his home.

Voit is an astronomer at the Space Telescope Science Institute.

Users Review

From reader reviews:

Dorothy Pearce:

The actual book *Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition)* will bring you to definitely the new experience of reading the book. The author style to elucidate the idea is very unique. Should you try to find new book you just read, this book very ideal to you. The book *Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition)* is much recommended to you to study. You can also get the e-book from your

official web site, so you can quicker to read the book.

Margaret Calderon:

The publication untitled Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition) is the publication that recommended to you to study. You can see the quality of the publication content that will be shown to anyone. The language that author use to explained their way of doing something is easily to understand. The article author was did a lot of exploration when write the book, therefore the information that they share for your requirements is absolutely accurate. You also might get the e-book of Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition) from the publisher to make you considerably more enjoy free time.

Jody Vinson:

Do you have something that you enjoy such as book? The guide lovers usually prefer to pick book like comic, brief story and the biggest you are novel. Now, why not striving Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition) that give your satisfaction preference will be satisfied by means of reading this book. Reading behavior all over the world can be said as the way for people to know world better then how they react toward the world. It can't be stated constantly that reading routine only for the geeky particular person but for all of you who wants to always be success person. So , for all you who want to start reading through as your good habit, you could pick Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition) become your starter.

Thomas Gonzalez:

You can spend your free time to read this book this reserve. This Essential Cosmic Perspective, The, Books a la Carte, Lecture - Tutorials for Introductory Astronomy, MasteringAstronomy with eText and Access Card (7th Edition) is simple bringing you can read it in the area, in the beach, train and soon. If you did not get much space to bring the actual printed book, you can buy typically the e-book. It is make you much easier to read it. You can save the actual book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.
