Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library) By Paul D. Groves

This newly revised and greatly expanded edition of the popular Artech House book *Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems* offers you a current and comprehensive understanding of satellite navigation, inertial navigation, terrestrial radio navigation, dead reckoning, and environmental feature matching. It provides both an introduction to navigation systems and an in-depth treatment of INS/GNSS and multisensor integration. The second edition offers a wealth of added and updated material, including a brand new chapter on the principles of radio positioning and a chapter devoted to important applications in the field. Other updates include expanded treatments of map matching, image-based navigation, attitude determination, acoustic positioning, pedestrian navigation, advanced GNSS techniques, and several terrestrial and short-range radio positioning technologies.

The book shows you how satellite, inertial, and other navigation technologies work, and focuses on processing chains and error sources. In addition, you get a clear introduction to coordinate frames, multi-frame kinematics, Earth models, gravity, Kalman filtering, and nonlinear filtering. Providing solutions to common integration problems, the book describes and compares different integration architectures, and explains how to model different error sources. You get a broad and penetrating overview of current technology and are brought up to speed with the latest developments in the field, including context-dependent and cooperative positioning.

DVD Included! Features eleven appendices, interactive worked examples, basic GNSS and INS Matlab® simulation software, and problems and exercises to help you master the material.

Contents: Preface. Introduction. Co-ordinate Frames, Kinematics, And The

Earth. Kalman Filter-Based Estimation. Inertial Sensors. Inertial Navigation. Dead Reckoning, Attitude, and Height Measurement. Principles of Radio Positioning. GNSS: Fundamentals, Signals, and Satellites. GNSS: User Equipment Processing and Errors. GNSS: Advanced Techniques. Long- and Medium-Range Radio Navigation. Short-Range Positioning. Environmental Feature Matching. INS/GNSS Integration. INS Alignment, Zero Updates, and Motion Constraints. Multisensor Integrated Navigation. Fault Detection, Integrity Monitoring, and Testing. Applications and Future Trends. List of Symbols. List of Acronyms and Abbreviations. About the Author. Index.

Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library) By Paul D. Groves Bibliography

- Sales Rank: #278462 in Books
- Brand: imusti

- Published on: 2013-04-01
- Original language: English
- Number of items: 1
- Dimensions: 10.00" h x 7.00" w x 1.25" l, 3.35 pounds
- Binding: Hardcover
- 800 pages

Editorial Review

Users Review

From reader reviews:

Richard McCain:

Typically the book Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library) has a lot associated with on it. So when you check out this book you can get a lot of help. The book was compiled by the very famous author. Tom makes some research previous to write this book. This particular book very easy to read you can find the point easily after reading this book.

Matthew Ramey:

Playing with family inside a park, coming to see the water world or hanging out with close friends is thing that usually you might have done when you have spare time, after that why you don't try matter that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library), you may enjoy both. It is good combination right, you still would like to miss it? What kind of hang-out type is it? Oh come on its mind hangout people. What? Still don't have it, oh come on its identified as reading friends.

Josue Denson:

Your reading sixth sense will not betray you actually, why because this Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library) guide written by well-known writer who really knows well how to make book which might be understand by anyone who have read the book. Written within good manner for you, still dripping wet every ideas and producing skill only for eliminate your own hunger then you still question Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library) as good book but not only by the cover but also from the content. This is one reserve that can break don't determine book by its protect, so do you still needing yet another sixth sense to pick this kind of!? Oh come on your looking at sixth sense already alerted you so why you have to listening to one more sixth sense.

Rebecca Muldoon:

Reading a publication make you to get more knowledge as a result. You can take knowledge and information from the book. Book is composed or printed or created from each source this filled update of news. On this

modern era like today, many ways to get information are available for you actually. From media social including newspaper, magazines, science e-book, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Ready to spend your spare time to open your book? Or just seeking the Principles of GNSS, Inertial, and Multisensor Integrated Navigation Systems, Second Edition (Artech House Remote Sensing Library) when you necessary it?
