Beginning Algebra (8th Edition)

By John Jr Tobey Jr., Jeffrey Slater, Jamie Blair, Jenny Crawford

Beginning Algebra (8th Edition) By John Jr Tobey Jr., Jeffrey Slater, Jamie Blair, Jenny Crawford

The **Tobey/Slater/Blair/Crawford series** builds essential skills one at a time by breaking the mathematics down into manageable pieces. This practical “building block” organization makes it easy for students to understand each topic and gain confidence as they move through each section. Students will find many opportunities to check and reinforce their understanding of concepts throughout the text. With this revision, the author team has added a new Math Coach feature that provides students with an office hour experience by helping them to avoid commonly made mistakes. With Tobey/Slater/Blair/Crawford, students have a tutor, a study companion, and now a coach, with them every step of the way.

Editorial Review

About the Author

John Tobey received his BA in mathematics from Wheaton College in Wheaton, Illinois in 1965, his MA in mathematics education from Harvard University in 1966, and his PhD in mathematics education from Boston University in 1980. He has taught in the mathematics department at the United States Military Academy at West Point and served as the Mathematics Department Chairman at North Shore Community College in Danvers, Massachusetts for five years. John has served as the president of the New England Mathematics Association of Two Year Colleges. He has received the NISOD award for outstanding teaching from the University of Texas at Austin. John is the author of seven mathematics books published by Pearson Education. John has spoken to many mathematics departments and at many professional meetings throughout the country on the topic of developmental mathematics education and distance learning in mathematics. He lives in Massachusetts.

Jeffrey Slater has been a professor at North Shore Community College for thirty-eight years and received the Teacher of the Year award in 2002. Jeff travels around the country speaking on student retention and is also a consultant to the Federal Government. He lives in Marblehead, Massachusetts with his wife Shelley and his yellow lab Gracie.

Jamie Blair has directed the Mathematics Learning Center at Orange Coast College for the past seventeen years. She designed, developed, and implemented the Center, and as a result of this effort has provided technical expertise related to the particulars of the Math Center to numerous other two-year colleges and at many conferences. In 2007 Jamie was appointed to the Team of Basic Skills Specialist by the California State Academic Senate. She is also currently participating on Title 3 committees on her campus. She specializes in teaching students who have never been successful in mathematics. She is an expert in the area of basic skills in relation to the learning needs of students. She lives in California.

Jennifer Crawford received her BS in mathematics from the University of Minnesota – Duluth in 1995 and her MS in mathematics from the University of Minnesota – Twin Cities in 1998. She taught a wide range of courses at North Shore Community College in Danvers, Massachusetts for five years. She currently teaches at Normandale Community College in Bloomington, Minnesota where her focus is working with developmental math students. She lives in Minneapolis, Minnesota with her husband, two young children, and black lab.

Users Review

From reader reviews:

Marcus Galvan:

Book is to be different per grade. Book for children until eventually adult are different content. As it is known to us that book is very important usually. The book Beginning Algebra (8th Edition) ended up being making you to know about other expertise and of course you can take more information. It is very advantages for you. The publication Beginning Algebra (8th Edition) is not only giving you much more new information but also being your friend when you feel bored. You can spend your own spend time to read

your publication. Try to make relationship together with the book Beginning Algebra (8th Edition). You never really feel lose out for everything in case you read some books.

Billie Luster:

Nowadays reading books be than want or need but also turn into a life style. This reading habit give you lot of advantages. The benefits you got of course the knowledge even the information inside the book in which improve your knowledge and information. The information you get based on what kind of book you read, if you want drive more knowledge just go with education and learning books but if you want truly feel happy read one together with theme for entertaining for instance comic or novel. The particular Beginning Algebra (8th Edition) is kind of guide which is giving the reader unstable experience.

Glenda Rogers:

Your reading sixth sense will not betray you, why because this Beginning Algebra (8th Edition) book written by well-known writer who knows well how to make book that could be understand by anyone who read the book. Written in good manner for you, leaking every ideas and writing skill only for eliminate your own personal hunger then you still skepticism Beginning Algebra (8th Edition) as good book not merely by the cover but also with the content. This is one publication that can break don't ascertain book by its protect, so do you still needing one more sixth sense to pick this kind of!? Oh come on your looking at sixth sense already told you so why you have to listening to another sixth sense.

Brad Sharpe:

Are you kind of occupied person, only have 10 as well as 15 minute in your moment to upgrading your mind expertise or thinking skill even analytical thinking? Then you have problem with the book as compared to can satisfy your short space of time to read it because all this time you only find guide that need more time to be read. Beginning Algebra (8th Edition) can be your answer since it can be read by you actually who have those short time problems.
