Diagnostic Pathology: Molecular Oncology, 1e By Mohammad A Vasef MD, Aaron Auerbach MD FRCPC Dipl. Epid.

This volume in the highly regarded *Diagnostic Pathology* series provides a **clearer understanding** of molecular pathology as it relates to the transformation and pathogenesis of cancer. *Diagnostic Pathology: Molecular Oncology* is the **first** reference to apply a **practical and clinical approach** to examining how molecular mutations affect common medical diseases. Additionally, it identifies the **relevant and appropriate molecular tests** to perform for a complete work-up in the era of molecular-targeted therapies. **Easy to use and packed with outstanding illustrations**, this is an essential resource for all pathologists or clinicians who need to keep up with the ever-evolving field of molecular medicine.

- **Up-to-date information** on a variety of topics
 - **Next-generation sequencing** for determining gene mutations
 - Diagnostic use of **soft tissue mutations**
 - Use of **solid tissue mutations** such as *EGFR*, *BRAF*, and *KRAS* for diagnosis and treatment of different carcinomas and melanoma
 - **Interpreting newly found mutations in hematopathology** such as *MYD88* mutations
 - Understanding **bioinformatics**
 - Guidance on selecting the right test(s) at the right time for the right patient
- Comparisons of **molecular testing methods** (i.e., FISH testing vs. cytogenetics)
- **More than 2,000 images** including H&E stains, immunostains, and FISH images
- **Expert Consult eBook version included with purchase** allows you to search all of the text, figures, and references from the book on a variety of devices

Editorial Review

Review

2016 BMA Awards: Highly Commended, Pathology

"You must get this book. If you want a quick, concise, clear, and comprehensive, state-of-the-art book on molecular pathology, this is the one." **Reviewed by** Valerie L. Ng, PhD MD (Alameda County Medical Center/Highland Hospital), Doody's Review Service

"...the overall quality of the book is excellent and it is highly recommended to pathologists as well as trainees as a great reference source."

-Journal of Cytology and Histology, February 2016

Users Review

From reader reviews:

Kenneth Hill:

The experience that you get from Diagnostic Pathology: Molecular Oncology, 1e is a more deep you digging the information that hide inside the words the more you get thinking about reading it. It doesn't mean that this book is hard to recognise but Diagnostic Pathology: Molecular Oncology, 1e giving you joy feeling of reading. The author conveys their point in certain way that can be understood by simply anyone who read it because the author of this publication is well-known enough. This kind of book also makes your vocabulary increase well. So it is easy to understand then can go along with you, both in printed or e-book style are available. We advise you for having this kind of Diagnostic Pathology: Molecular Oncology, 1e instantly.

Susannah Williams:

The actual book Diagnostic Pathology: Molecular Oncology, 1e has a lot of information on it. So when you make sure to read this book you can get a lot of advantage. The book was authored by the very famous author. The author makes some research previous to write this book. This particular book very easy to read you may get the point easily after perusing this book.

Jacob Gray:

People live in this new moment of lifestyle always try and and must have the free time or they will get great deal of stress from both lifestyle and work. So , once we ask do people have time, we will say absolutely of course. People is human not really a huge robot. Then we inquire again, what kind of activity do you have

when the spare time coming to an individual of course your answer will certainly unlimited right. Then ever try this one, reading guides. It can be your alternative throughout spending your spare time, the actual book you have read will be Diagnostic Pathology: Molecular Oncology, 1e.

Ricardo Donaldson:

In this period globalization it is important to someone to receive information. The information will make anyone to understand the condition of the world. The healthiness of the world makes the information quicker to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You can observe that now, a lot of publisher that will print many kinds of book. The particular book that recommended to you is Diagnostic Pathology: Molecular Oncology, 1e this book consist a lot of the information in the condition of this world now. This particular book was represented how can the world has grown up. The dialect styles that writer use to explain it is easy to understand. Often the writer made some investigation when he makes this book. That's why this book suitable all of you.
