Editorial Review

Review

"Survival Theory is the perfect book for both those beginning to prepare and for die-hard preppers.

Hollerman challenges your ideas on whether or not you should bug out, your gear, and even your method for calculating your food storage. In a straightforward, non-combative way, he shakes everything up with systematic research, consistent reinforcement of ideas, and his expertise in his field. Do yourself a favor and buy this book before you buy any more preps. It will not only inspire you, but it will save you time and money." - UrbanPrepList.com

"Survival Theory is one of the top survival and preparedness books to come out in the last 10 years. Each chapter is filled with practical, every day tips and recommendations that anyone can immediately use with their family. Survival Theory also takes the guesswork out of guns, gear, and supplies" - Lance Wolfe, WolfeSurvival.com

"Jonathan Hollerman's real life knowledge and expertise are not only found in his engaging books and novels, but also in his well thought out actionable preparation lists. This is why the Prepify App relies on his preparation lists as a staple for our app and community." - Clint Laub, Prepify App for Apple and Android

"If you are looking for a book on survival by someone with real life practical experience, then I would highly recommend you add this to your collection... If you are into prepping this book is a must have!" - SurvivorTown.com

"Upon reading the Preface, I was hooked. His words could have just as easily been my own as he provides a glimpse into his core thoughts and basis for the book itself, preparing for a worst-case scenario. While there are many 'Preparedness 101' books out there, this one is up front and 'in your face' about the realities of a long-term grid-down scenario and he doesn't soften the blow. There's no doubt that you will benefit from reading this book" - Ken Jorgustin, ModernSurvivalBlog.com

I have read this book several times now. I have taught SERE [Survival, Evasion, Resistance, and Escape] in Washington State, Florida, Saudi Arabia, Sudan, and Jordan. My experiences in East Africa in the early 80's gave me a harsh look at civil war. You have no idea what starving people will do and how hard it is to say "NO". This book is a must for each library, it is thought provoking and will have you purchasing more books, and guides. - Ron Long, USAF SERE Instructor 72-01
