The Art and Archaeology of Ancient Greece By Judith M. Barringer

The Art and Archeology of Ancient Greece is an introductory-level textbook for students with little or no background in ancient art. Arranged chronologically in broad swathes of time, from the Bronze and Iron Ages through the Geometric, Archaic, Classical, and Hellenistic periods, and concluding with the Roman conquest of the Greek world, the textbook focuses on Greek art but also incorporates Near Eastern, Etruscan, and Roman objects. Judith M. Barringer examines a variety of media, analyzing marble and bronze sculpture, public architecture, and vase painting, as well as coins, domestic architecture, mosaics, terracotta figurines and reliefs, jewelry, and wall painting. This book adopts an approach that considers objects and monuments within their cultural contexts. * More than 500 illustrations, with over 400 in color and 13 maps, including specially commissioned photographs, maps, plans, and reconstructions * Includes text boxes, chapter summaries and timelines, and detailed glossary * Looks at Greek art from perspectives of both art history and archaeology, giving students an understanding of the historical and everyday context of art objects

Editorial Review

Review

"This book is a superb resource for students and teachers of ancient Greek art specifically and the ancient Greek world as a whole. Barringer strikes an ideal balance between brevity and depth, leaving just enough room between the sentences for dialogue, discussion, and discourse. No mere survey, this important new text goes out of its way to problematize traditional narratives and point to the hidden riches and complexities of the field."

Peter Schultz, Concordia College, Moorhead, Minnesota

"There is no lack of good introductions to the art and archaeology of ancient Greece, but Barringer's new book - clearly written and presented, incorporating the latest scholarship, and superbly illustrated (many images are new, unusual and uncommonly instructive in themselves) - will occupy the first rank. The narrative is made to order for undergraduate surveys, but even advanced students and scholars will benefit from the book's succinct and perceptive analyses of the themes, functions and cultural contexts of the major monuments of Greek art and architecture. It is that rare thing: a readable survey that intimates the richness, depth and complexity of its subject."

Jeffrey M. Hurwit, University of Oregon
