Davy has spent the last few months trying to come to terms with the fact that she tested positive for the kill gene HTS (also known as Homicidal Tendency Syndrome). She swore she would not let it change her, and that her DNA did not define her . . . but then she killed a man.

Now on the run, Davy must decide whether she'll be ruled by the kill gene, or if she'll follow her heart and fight for her right to live free. But with her own potential for violence laying right beneath the surface, Davy doesn't even know if she can trust herself.

Editorial Review

From School Library Journal

Gr 8 Up—Davy and her friends are back in this sequel to *Uninvited* (HarperCollins, 2014). Since receiving her diagnosis of Homicidal Tendency Syndrome, Davy's life has changed dramatically. As government policies about treatment of those in possession of the "kill gene" continue to evolve, her position in society becomes increasingly untenable. Her initial attempt to escape to Mexico is unsuccessful and she is separated from her friends (and boyfriend, Sean). She is rescued by a group of resistance fighters and quickly develops feelings for Caden. There is infighting within the resistance cell, but Davy is torn between staying with Caden and attempting to reach Mexico and Sean. Everything wraps up neatly and quickly. Readers will miss Sean and be confused by Davy's quick change of heart toward Caden. More sophisticated readers of dystopian fiction may question why the book didn't delve deeper into the concept of a "kill gene," instead of simply accepting it as a plot point. However, fans of the first installment will likely enjoy this and the subsequent volume. Purchase where *Uninvited* and other romantic dystopian titles have been popular.—Kristin Anderson, Columbus Metropolitan Library System, OH

From the Back Cover

What if the worst thing you ever did was unforgivable?

Davy's world fell apart after she tested positive for Homicidal Tendency Syndrome. She was expelled from her school, dumped by her boyfriend, abandoned by friends, and shipped off to a camp that turns HTS carriers into soldiers. Davy may have escaped, but the damage has already been done. The unthinkable has happened. Now, even worse than having everyone else see her as a monster is the knowledge that they may have been right about her all along. Because Davy has killed.

On the run from government agents, Davy is rescued by Caden, the charismatic leader of an underground group of rebels. Despite Caden's assurances that the Resistance is made up of carriers like her, Davy isn't sure she can trust them. Then again, she doesn't even know if she can trust herself . . . or her growing feelings for Caden. But if she doesn't belong with Caden and his followers, is there anywhere she can call home?
