Beginning & Intermediate Algebra (4th Edition)

By John Tobey Jr., Jeffrey Slater, Jamie Blair, Jenny Crawford

Beginning & Intermediate Algebra (4th Edition) By John Tobey Jr., Jeffrey Slater, Jamie Blair, Jenny Crawford

The **Tobey/Slater/Blair/Crawford series** builds essential skills one at a time by breaking the mathematics down into manageable pieces. This practical “building block” organization makes it easy for students to understand each topic and gain confidence as they move through each section. Students will find many opportunities to check and reinforce their understanding of concepts throughout the text. With this revision, the author team has added a new Math Coach feature that provides students with an office hour experience by helping them to avoid commonly made mistakes. With Tobey/Slater/Blair/Crawford, students have a tutor, a study companion, and now a coach, with them every step of the way.

Editorial Review

About the Author

John Tobey received his BA in mathematics from Wheaton College in Wheaton, Illinois in 1965, his MA in mathematics education from Harvard University in 1966, and his PhD in mathematics education from Boston University in 1980. He has taught in the mathematics department at the United States Military Academy at West Point and served as the Mathematics Department Chairman at North Shore Community College in Danvers, Massachusetts for five years. John has served as the president of the New England Mathematics Association of Two Year Colleges. He has received the NISOD award for outstanding teaching from the University of Texas at Austin. John is the author of seven mathematics books published by Pearson Education. John has spoken to many mathematics departments and at many professional meetings throughout the country on the topic of developmental mathematics education and distance learning in mathematics. He lives in Massachusetts.

Jeffrey Slater has been a professor at North Shore Community College for thirty-eight years and received the Teacher of the Year award in 2002. Jeff travels around the country speaking on student retention and is also a consultant to the Federal Government. He lives in Marblehead, Massachusetts with his wife Shelley and his yellow lab Gracie.

Jamie Blair has directed the Mathematics Learning Center at Orange Coast College for the past seventeen years. She designed, developed, and implemented the Center, and as a result of this effort has provided technical expertise related to the particulars of the Math Center to numerous other two-year colleges and at many conferences. In 2007 Jamie was appointed to the Team of Basic Skills Specialist by the California State Academic Senate. She is also currently participating on Title 3 committees on her campus. She specializes in teaching students who have never been successful in mathematics. She is an expert in the area of basic skills in relation to the learning needs of students. She lives in California.

Jennifer Crawford received her BS in mathematics from the University of Minnesota – Duluth in 1995 and her MS in mathematics from the University of Minnesota – Twin Cities in 1998. She taught a wide range of courses at North Shore Community College in Danvers, Massachusetts for five years. She currently teaches at Normandale Community College in Bloomington, Minnesota where her focus is working with developmental math students. She lives in Minneapolis, Minnesota with her husband, two young children, and black lab.

Users Review

From reader reviews:

Francisco Gentry:

Book is usually written, printed, or outlined for everything. You can know everything you want by a publication. Book has a different type. As we know that book is important issue to bring us around the world. Adjacent to that you can your reading expertise was fluently. A publication Beginning & Intermediate

Algebra (4th Edition) will make you to be smarter. You can feel considerably more confidence if you can know about everything. But some of you think that will open or reading the book make you bored. It is not make you fun. Why they might be thought like that? Have you in search of best book or ideal book with you?

Karen Martinez:

In this particular era which is the greater individual or who has ability to do something more are more treasured than other. Do you want to become one among it? It is just simple solution to have that. What you should do is just spending your time very little but quite enough to experience a look at some books. One of several books in the top collection in your reading list is Beginning & Intermediate Algebra (4th Edition). This book that is qualified as The Hungry Slopes can get you closer in getting precious person. By looking right up and review this e-book you can get many advantages.

Ann David:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some book, they are complained. Just tiny students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading really. Any students feel that studying is not important, boring and also can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Beginning & Intermediate Algebra (4th Edition) can make you sense more interested to read.

Matthew Haley:

Reading a guide make you to get more knowledge from that. You can take knowledge and information from a book. Book is composed or printed or outlined from each source in which filled update of news. On this modern era like now, many ways to get information are available for anyone. From media social such as newspaper, magazines, science e-book, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you ready to spend your spare time to spread out your book? Or just seeking the Beginning & Intermediate Algebra (4th Edition) when you desired it?
