**Get all of the information you need to complete home wiring projects and make sure they are up to code, even for solar power collection!**

*BLACK+DECKER Advanced Home Wiring* contains a carefully selected group of home wiring projects that goes far beyond the basics of adding a receptacle or rewiring a lamp. Take your skill in working with electrical systems to a new level. Projects include adding a stand-alone, direct-current circuit powered by the sun; installing an automatic standby power system; replacing a main service panel; grounding and bonding your electrical system; installing a radiant flooring system; and working with 240-volt and three-phase power. There are also updated circuit maps to show available neutral, information on AFCI-protected service panels, and crucially important changes in GFCI protection codes.

All projects include clear photos and are current with the 2014–2017 National Electrical Code.
