Conscious Evolution: Awakening the Power of Our Social Potential By Barbara Marx Hubbard

A Seminal Work of Visionary Hope, Updated for the 21st Century

In this era of government gridlock, economic and ecological devastation, and seemingly intractable global violence, our future is ever more ripe for — and in need of — fresh, creative reimagining. With her clear-eyed, inspiring, and sweeping vision of a possible global renaissance in the new millennium, Barbara Marx Hubbard shows us that our current crises are not the precursors of an apocalypse but the natural birth pains of an awakened, universal humanity. This is our finest hour. *Conscious Evolution* highlights the tremendous potential of newfound scientific knowledge, technological advances, and compassionate spirituality and illustrates the opportunities that each of us has to fully participate in this exciting stage of human history. As we do, we will bring forth all that is within us and not only save ourselves, but evolve our world.
