GPS Made Easy: Using Global Positioning Systems in the Outdoors, 5th Edition By Lawrence Letham

"A one-stop source of information" - Arizona Republic

"Buying and reading this book won't guarantee you'll never get lost again, but it's a good start." - Los Angeles Daily News

- * For everyone who is frustrated with the complexity of their new GPS unit
- * New information on integrating GPS data with TOPO software
- * Learn to navigate even in terrible weather conditions

GPS units offer great promise ... if you can figure out how to use them. Most people experience a pack's full of frustration in trying to learn these complicated devices. *GPS Made Easy, 5th Edition* is the instruction manual that was missing with your device. In addition to the basics, it includes navigation in difficult weather (such as a whiteout), integrating hand-held GPS tools and data with computer programs (such as TOPO maps), and an explanation of systems being used in other countries.

GPS Made Easy, 5th Edition is written so anyone can learn to use this technology, with lots of easy-to-follow examples.

Editorial Review

Review

"GPS Made Easy by Lawrence Letham was the book most recommended on GPS information, and the book used [most often] by people who guide for a living, [who] teach outdoor survival training, and [those who] run guide training schools." (*North American Bear Foundation*)

"That we - the collective outdoorsman we - are confused by our GPS devices is why this explanatory instruction guide just went into its fifth printing. Anything that can make GPS easy will be snapped up, and this is a book that stakes its cover reputation on delivering simplicity and usability." (*The Reel News*)

Review

"GPS Made Easy by Lawrence Letham was the book most recommended on GPS information, and the book used [most often] by people who guide for a living, [who] teach outdoor survival training, and [those who] run guide training schools."
