Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) By John David Anderson

Anderson's book provides the most accessible approach to compressible flow for Mechanical and Aerospace Engineering students and professionals. In keeping with previous versions, the 3rd edition uses numerous historical vignettes that show the evolution of the field. New pedagogical features - "Roadmaps" showing the development of a given topic, and "Design Boxes" giving examples of design decisions - will make the 3rd edition even more practical and user-friendly than before. The 3rd edition strikes a careful balance between classical methods of determining compressible flow, and modern numerical and computer techniques (such as CFD) now used widely in industry and research. A new book website will contain all problem solutions for instructors.

Editorial Review

About the Author

John D. Anderson, Jr., was born in Lancaster, Pennsylvania, on October 1, 1937. He attended the University of Florida, graduating in 1959 with high honors and a Bachelor of Aeronautical Engineering Degree. From 1959 to 1962, he was a Lieutenant and Task Scientist at the Aerospace Research Laboratory at Wright-Patterson Air Force Base. From 1962 to 1966, he attended the Ohio State University under the National Science Foundation and NASA Fellowships, graduating with a PhD in Aeronautical and Astronautical Engineering. In 1966, he joined the U.S. Naval Ordnance Laboratory as Chief of the Hypersonics Group. In 1973, he became Chairman of the Department of Aerospace Engineering at the University of Maryland, and since 1980 has been Professor of Aerospace Engineering at the University of Maryland. In 1982, he was designated a Distinguished Scholar/Teacher by the University. During 1986-1987, while on sabbatical from the University, Dr. Anderson occupied the Charles Lindbergh Chair at the National Air and Space Museum of the Smithsonian Institution. He continued with the Air and Space Museum one day each week as their Special Assistant for Aerodynamics, doing research and writing on the History of Aerodynamics. In addition to his position as Professor of Aerospace Engineering, in 1993, he was made a full faculty member of the Committee for the History and Philosophy of Science and in 1996 an affiliate member of the History Department at the University of Maryland. In 1996, he became the Glenn L. Martin Distinguished Professor for Education in Aerospace Engineering. In 1999, he retired from the University of Maryland and was appointed Professor Emeritus. He is currently the Curator for Aerodynamics at the National Air and Space Museum, Smithsonian Institution.

Users Review

From reader reviews:

Nancy Reese:

This Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) book is absolutely not ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book is actually information inside this publication incredible fresh, you will get information which is getting deeper a person read a lot of information you will get. This specific Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) without we recognize teach the one who studying it become critical in considering and analyzing. Don't become worry Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) can bring once you are and not make your carrier space or bookshelves' come to be full because you can have it inside your lovely laptop even cellphone. This Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) having very good arrangement in word in addition to layout, so you will not really feel uninterested in reading.

Paul Norris:

Precisely why? Because this Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) is an unordinary book that the inside of the reserve waiting for you to snap the item but latter it will jolt you with the secret the item inside. Reading this book close to it was fantastic author who else write the book in such amazing way makes the content on the inside easier to understand, entertaining means but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this ever again or you going to regret it. This amazing book will give you a lot of advantages than the other book have got such as help improving your proficiency and your critical thinking technique. So , still want to hesitate having that book? If I ended up you I will go to the e-book store hurriedly.

Lamar Santiago:

Do you have something that that suits you such as book? The e-book lovers usually prefer to select book like comic, limited story and the biggest some may be novel. Now, why not striving Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) that give your pleasure preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the way for people to know world considerably better then how they react when it comes to the world. It can't be mentioned constantly that reading practice only for the geeky individual but for all of you who wants to possibly be success person. So , for every you who want to start studying as your good habit, you could pick Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) become your personal starter.

Anita Rodriguez:

You can spend your free time you just read this book this book. This Modern Compressible Flow: With Historical Perspective. John D. Anderson, JR (Asia Higher Education Engineering/Computer Science Aerospace Engineering) is simple to bring you can read it in the recreation area, in the beach, train in addition to soon. If you did not get much space to bring typically the printed book, you can buy the particular e-book. It is make you easier to read it. You can save the actual book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.
