The Princeton Encyclopedia of the World Economy. (Two volume set) By Kenneth A. Reinert, Ramkishen S. Rajan, Amy Joycelyn Glass, Lewis S. Davis

Increasing economic globalization has made understanding the world economy more important than ever. From trade agreements to offshore outsourcing to foreign aid, this two-volume encyclopedia explains the key elements of the world economy and provides a first step to further research for students and scholars in public policy, international studies, business, and the broader social sciences, as well as for economic policy professionals.

Written by an international team of contributors, this comprehensive reference includes more than 300 up-to-date entries covering a wide range of topics in international trade, finance, production, and economic development. These topics include concepts and principles, models and theory, institutions and agreements, policies and instruments, analysis and tools, and sectors and special issues. Each entry includes cross-references and a list of sources for further reading and research. Complete with an index and a table of contents that groups entries by topic, *The Princeton Encyclopedia of the World Economy* is an essential resource for anyone who needs to better understand the global economy.

Editorial Review

Review

The Princeton Encyclopedia of the World Economy beautifully integrates the ideas, theories, institutions, policies, and analyses of the modern global economy. It provides expert essays on four major areas of economic globalization: international trade, international finance, international production, and international economic development. The essays are written in language that bridges the gap between general treatments found in popular publications and the complex analyses found in specialist publications, such as academic journals and monographs. . . . This is a wonderful work for the serious study of the global economy.

From the Back Cover

"An excellent idea. This is the kind of book that many students of international political economy, who often feel uncomfortable with the more technical aspects of the subject, will want to consult."--**Andrew Walter, London School of Economics and Political Science**

"*The Princeton Encyclopedia of the World Economy* has a good scope--not too much to be overwhelming but broad enough to cover important topics."--**Douglas Irwin, Dartmouth College**

About the Author

Kenneth A. Reinert is professor of public policy at George Mason University, where he directs the International Commerce and Policy Program. He is the author of *Windows on the World Economy* and the coauthor of *Globalization for Development*. **Ramkishen S. Rajan** is associate professor of public policy at George Mason University and the author of *Economic Globalization and Asia*. **Amy Jocelyn Glass** is associate professor of economics at Texas A&M University. **Lewis S. Davis** is assistant professor of economics at Union College.

Users Review

From reader reviews:

Billie Luster:

Book is written, printed, or illustrated for everything. You can know everything you want by a publication. Book has a different type. As it is known to us that book is important thing to bring us around the world. Next to that you can your reading proficiency was fluently. A reserve *The Princeton Encyclopedia of the World Economy. (Two volume set)* will make you to possibly be smarter. You can feel considerably more confidence if you can know about every little thing. But some of you think which open or reading any book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you searching for best book or ideal book with you?

Rene Moore:

This *The Princeton Encyclopedia of the World Economy. (Two volume set)* are usually reliable for you who

want to be considered a successful person, why. The key reason why of this The Princeton Encyclopedia of the World Economy. (Two volume set) can be one of the great books you must have is actually giving you more than just simple examining food but feed anyone with information that possibly will shock your earlier knowledge. This book is actually handy, you can bring it all over the place and whenever your conditions in the e-book and printed people. Beside that this The Princeton Encyclopedia of the World Economy. (Two volume set) forcing you to have an enormous of experience including rich vocabulary, giving you trial run of critical thinking that we realize it useful in your day pastime. So , let's have it and revel in reading.

Troy Cochran:

This The Princeton Encyclopedia of the World Economy. (Two volume set) is great e-book for you because the content which is full of information for you who also always deal with world and also have to make decision every minute. This specific book reveal it details accurately using great plan word or we can claim no rambling sentences inside. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but tricky core information with wonderful delivering sentences. Having The Princeton Encyclopedia of the World Economy. (Two volume set) in your hand like obtaining the world in your arm, data in it is not ridiculous one particular. We can say that no book that offer you world in ten or fifteen tiny right but this reserve already do that. So , this really is good reading book. Hey there Mr. and Mrs. stressful do you still doubt in which?

Joseph Yancey:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some e-book, they are complained. Just little students that has reading's soul or real their interest. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that reading is not important, boring and can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this The Princeton Encyclopedia of the World Economy. (Two volume set) can make you experience more interested to read.
