The Periodic Table: Elements with Style! By Simon Basher, Adrian Dingle

Basher Science: The Periodic Table, Elements with Style! created and illustrated by Simon Basher, Written by Adrian Dingle:

The Periodic Table introduces budding chemists to the world of the elements as it's never been seen before. Designed to resemble popular networking Web sites, the pages of this book feature "homepages" for each of the chemical elements -- complete with witty and informative profiles written by the elements themselves, plus a personally chosen picture.

Editorial Review

From [Booklist](#)

The scope and qualities of this unique book are summed up better in its subtitle than in its title. While Dingle does little to explain the periodic table, he shows all the elements of the periodic table on a chart with very original graphics and spotlights 64 of the elements for closer examination on single pages or double-page spreads. Placed against a list including an element's symbol, atomic number, atomic weight, color, standard state, and classification, the element introduces itself in one, two, or three cheeky but informative paragraphs that focus on its qualities and uses. Each presentation ends with the element's date of discovery or earliest known use, its density, its melting point, its boiling point, and a digitally assisted color illustration with a distinctively Japanese, cartoonlike quality. The endpapers feature a glossary and an illustrated foldout poster of the periodic table. The quirky, idiosyncratic artwork and the unusual voice make this little book an appealing choice for introducing elements of the periodic table. Phelan, Carolyn

About the Author

High school chemistry teacher Adrian Dingle is the creator of the award-winning chemistry Web site: adriandingleschemistrypages.com. His site has been recommended by the Eisenhower National Clearinghouse, the BBC, the National Science Teachers Association, and Cornell Theory Center --among many others. Born in England, he has taught in both the United States and United Kingdom and now lives in Atlanta, Georgia, where he teaches at The Westminster Schools. He holds a B.S. and a postgraduate certificate in education from the University of Exeter.

Artist and designer Simon Basher has fun playing in the world of contemporary character design. Inspired by a love of simple line work and a rich color palette, his characters fill the gap between edgy manga and the cuteness of Hello Kitty. He lives in England.

Users Review

From reader reviews:

Charles Tebo:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to be aware of everything in the world.
