## **Editorial Review**

### Review

Magic Bullets is one of the best books ever written on the subject of improving success with women. It is probably one of the most honest, well rounded, information-packed books you will read. One unique aspect of Magic Bullets that sets it apart is each chapter is written in logical order, but can be read on its own even without reading the others. This is great because you can just review those chapters that you need to refresh separately. Or, for example, if you are a beginner and want a quick primer on what will help you in clubs tonight, there is a chapter that will do that for you that you can skip to right away. Another thing that was extremely impressive about the book was just how in-depth and well researched it was and yet it still included very subtle advice at the same time. The book was full of deep, masterful detail in every chapter. One of my favorite things about Magic Bullets was the extreme level of detail in the Seduction phase, which is definitely lacking in most books of its type. In the book you get some real magic bullets on how to get to sex faster and with higher probability of success. These tips and gems alone are well worth the price of the book. For those looking for very niche and advanced material, there is no shortage of that either. The book is truly well rounded for beginners and veteran students of the game alike. Whether you are a beginner or an advanced student of the arts, you owe it to yourself to begin your education with this book or add it to your collection. The information contained in it is state of the art and hard hitting. Get your copy now, and start enjoying your own magic results with women. When I first met Savoy it was actually over the phone over a distance of thousands of miles, and at the time I had no idea he knew so much about seduction. In the years that have ensued, it is clear to me from meeting him in person finally and reading Magic Bullets that Savoy has become even more knowledgeable and one of the true experts in the field. --TokyoPUA , Fast Seduction 101

To put it simply, the book is a wonderful piece of work. I highly recommend it to everyone who wishes to learn the steps to becoming great at the art... From your approach to seduction everything is mapped out to the letter with more than enough freedom for the imagination to run wild. As with most technology in this day and age, if Magic Bullets were a computer program I would call it very user friendly. I found it extremely helpful to have a book like this bring me back into the dating shark tank as the shark instead of the bait. My advice to all is to get this book and let it do the same for you. --- Nostro, The Attraction Forums

Magic Bullets gives you a system you can use the same day, without reading the whole book. No other book can beat that. No book gives you a plan in 10 minutes of reading of what you can do that night. Unlike a lot of pickup material, this book touches on female psychology. This chapter was my favorite, second to phone game. The insight you will gain from phone game is worth the price right there. Magic Bullets includes the ever popular he said/she said teaching examples. Every chapter in this book is important. The night I ordered it I read the entire thing. Even though I was tired, I took a NoDoz because I was so determined to finish it and not miss anything because of my fatigue. Everyone who hasn't yet bought Magic Bullets... stop thinking about it and just do it... the price of the book was worth it after just a few pages. If I haven't convinced you yet, know this: Savoy does a great job at teaching this material. The format of the book is designed so you can go back and read a chapter on phone game or the Qualification phase. I even e-mailed Savoy with a question about the book and got a prompt response. It is not every day you can ask the author a question and get an answer, especially with someone as busy as he is. --- Surefire, The Attraction Forums

### About the Author

Nick (Savoy) is President and CEO of Love Systems Corporation and is the author of Magic Bullets, our "bible" of dating science and social dynamics. He loves adventure and a challenge. After college, he traveled

the world for several years, managing international businesses in Europe, the Middle East, and South Africa. He started by gambling at backgammon for food and travel money across Turkey and finished by helping raise financing in Slovakia for Europe's most promising low-cost airline Sky Europe. He has an MBA from Wharton and an Honors Degree in History from McGill University in Montreal. Love Systems Corp. is his just one of his successful startups, several coming before the age of 30. He has also consulted to several Fortune 500 companies around the world on business strategy.

## **Users Review**
