### Maker Dad: Lunch Box Guitars, Antigravity Jars, and 22 Other Incredibly Cool Father-Daughter DIY Projects By Mark Frauenfelder

As the editor in chief of *MAKE* magazine, Mark Frauenfelder has spent years combing through DIY books, but he's never been able to find one with geeky projects he can share with his two daughters. *Maker Dad* is the first DIY book to use cutting-edge (and affordable) technology in appealing projects for fathers and daughters to do together. These crafts and gadgets are both rewarding to make and delightful to play with. What's more, *Maker Dad* teaches girls lifelong skills—like computer programming, musicality, and how to use basic hand tools—as well as how to be creative problem solvers. The book's twenty-four unique projects include:

Drawbot, a lively contraption that draws abstract patterns all by itself

- Ice Cream Sandwich Necklace
- Friendstrum, an electronic musical instrument girls can play with friends
- Longboard
- Antigravity Jar
- Silkscreened T-Shirt
- Retro Arcade Video Game
- Host a Podcast
- Lunchbox Guitar
- Kite Video Camera

Innovative and groundbreaking, *Maker Dad* will inspire fathers to geek out with their daughters and help girls cultivate an early affinity for math, science, and technology.

## Review

"The only thing better than DIY is DIWHOF (Do it with Help of Family). This wonderful book makes that possible. Mark Frauenfelder is the Founding Geek of the Maker Movement and he does not disappoint. This book will not only provide you weeks of fun, but it will foster creativity and technical savvy in your daughters. Plus you'll make a robot that draws. I mean, come on!" —**A.J. Jacobs, author of *The Year of Living Biblically***

"Every dad should 'make cool stuff' with their daughters. You will have great father-daughter time working on the projects in *Maker Dad* and it may even spark a lifelong passion for technology. My dad bought home a TRS-80 computer when I was 11 and then signed us up for computer lessons at RadioShack. With this book, you can introduce your daughter to the world of robots, magic, music and more!" —**Helen Greiner, co-founder of iRobot and CEO of CyPhyWorks**

## About the Author

Mark Frauenfelder is the founder of BoingBoing, one of the world's most popular blogs, and the editor in chief of *MAKE* magazine, which sparked the current DIY movement and remains its spiritual center.
