Access 2010 Programmer's Reference By Teresa Hennig, Rob Cooper, Geoffrey L. Griffith, Jerry Dennison

A comprehensive guide to programming for Access 2010 and 2007

Millions of people use the Access database applications, and hundreds of thousands of developers work with Access daily. Access 2010 brings better integration with SQL Server and enhanced XML support; this Wrox guide shows developers how to take advantage of these and other improvements.

With in-depth coverage of VBA, macros, and other programming methods for building Access applications, this book also provides real-world code examples to demonstrate each topic.

Access 2010 Programmer's Reference is a comprehensive guide to the best-of-breed techniques for programming Access applications.

Coverage Includes:

- Introduction to Microsoft Access 2010
- New Features
- Upgrading and Converting to Access 2010
- Macros in Access 2010
- Using the VBA Editor
- VBA Basics
- Using VBA in Access
- Creating Classes in VBA
- Extending VBA with APIs
- Working with the Windows Registry
- Using DAO to Access Data
- Using ADO to Access Data
- Using SQL with VBA
- Using VBA to Enhance Forms
- Enhancing Reports with VBA
- Customizing the Ribbon
- Customizing the Office Backstage
- Working with Office 2010
- Working with SharePoint

- Working with .NET
- Building Client-Server Applications with Access
- The Access 2010 Templates
- Access Runtime Deployment
- Database Security
- Access 2010 Security Features

Editorial Review

From the Back Cover

Build robust database applications with Access 2010

Microsoft Access 2010 offers a rich set of features and design tools for storing, analyzing, and viewing data, along with the inherent ability to connect to a large variety of data sources. With this book, you'll discover the benefits of using the newest features to build small- to medium-scale database applications, integrate with other programs, create Web applications, and upgrade existing solutions.

Access 2010 Programmer's Reference:

- Shows you how to program VBA and macros for Access, including use of error handling, best practices, and helpful tips
- Provides code examples that demonstrate how to enhance and extend the functionality of Access applications
- Shows when, why, and how to use DAO and ADO in VBA
- Demonstrates how to build Access applications that leverage SharePoint®, SQL Server®, Excel®, XML, and other sources
- Discusses deployment considerations, such as working with mixed platforms and versions, 64-bit Office, Access Runtime, Access and database security, and upgrading and conversions

Wrox Programmer's References are designed to give the experienced developer straight facts on a new technology, without hype or unnecessary explanations. They deliver hard information with plenty of practical examples to help you apply new tools to your development projects today.

About the Author

Teresa Hennig is a Microsoft Access MVP, and is President of the Seattle Access Group and the Pacific Northwest Access Developer Group. Her company, Data Dynamics NW, has been creating Access solutions since 1997.

Rob Cooper is a senior test lead at Microsoft. During the Access 2010 release, he led the team that worked on exciting new features such as the Macro Designer, Navigation Control, and Web Browser Control.

Geoffrey Griffith has more than 13 years experience with Access. He began his Access life working in Access 2.0 and eventually worked on the Microsoft Access Team for the Access 2007 release.

Jerry Dennison is a Microsoft Access MVP and has been developing custom and commercial Access applications since 1991. He is the owner of TradeIt! Software Support Services, an Access-based barter management solution.

Users Review

From reader reviews:

Bruce Brown:

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite reserve and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the publication entitled Access 2010 Programmer's Reference. Try to make book Access 2010 Programmer's Reference as your friend. It means that it can being your friend when you truly feel alone and beside associated with course make you smarter than previously. Yeah, it is very fortunated for you personally. The book makes you a lot more confidence because you can know everything by the book. So , we need to make new experience and also knowledge with this book.

Rachel Robbins:

Information is provisions for people to get better life, information nowadays can get by anyone in everywhere. The information can be a knowledge or any news even a concern. What people must be consider if those information which is inside former life are hard to be find than now could be taking seriously which one is suitable to believe or which one the actual resource are convinced. If you find the unstable resource then you have it as your main information we will see huge disadvantage for you. All of those possibilities will not happen within you if you take Access 2010 Programmer's Reference as the daily resource information.

Kisha Hutton:

Spent a free time for you to be fun activity to do! A lot of people spent their free time with their family, or their very own friends. Usually they undertaking activity like watching television, likely to beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? May be reading a book may be option to fill your free of charge time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to try out look for book, may be the book untitled Access 2010 Programmer's Reference can be good book to read. May be it may be best activity to you.

Gregory Medina:

A lot of guide has printed but it differs from the others. You can get it by world wide web on social media. You can choose the best book for you, science, witty, novel, or whatever by means of searching from it. It is identified as of book Access 2010 Programmer's Reference. You can include your knowledge by it. Without leaving behind the printed book, it can add your knowledge and make you happier to read. It is most crucial that, you must aware about publication. It can bring you from one spot to other place.
